

New Juvenile Non-Fiction !

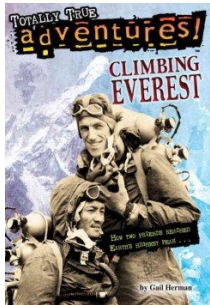

Dinosaurs live on! : And Other Fun Facts

by Laura Lyn DiSiena

A fact-filled introduction to the world of dinosaurs includes entries on everything from fossils and

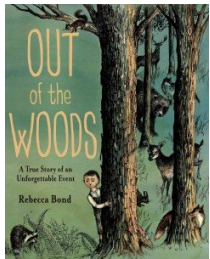

pterosactyls to the T. Rex and theories about how birds may be dinosaur descendants.

Climbing Everest : how heroes reached Earth's highest peak...

by Gail Herman

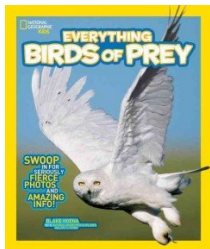

An introduction to the lives and achievements of the first men to climb Mount Everest shares insights into their cultural differences and inspiring examples of teamwork.

Out of the woods : a true story of an unforgettable event

by Rebecca Bond

Inspired by the author's grandfather's experiences living in a lodge in the woods, a story of how people and animals survive a forest fire in a small Canadian town.

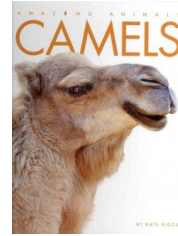

Everything birds of prey : Swoop in for Seriously Fierce Photos and Amazing Info

by B. A. Hoena

Fresh, dynamic presentations of nonfiction subjects that kids love best offer young readers an exciting way to

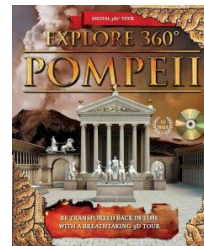

absorb everything they want to know about a subject, whether they are driven by intense interest or curiosity or both. Includes colorful photographs, engaging facts and tantalizing anecdotes from real experts.

Camels

by Kate Riggs

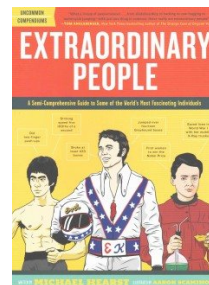

A basic exploration of the appearance, behavior, and habitat of camels, hump-backed, furry desert-dwellers. Also included is a story from folklore explaining how camels got their humps.

Pompeii

by Peter Chrisp

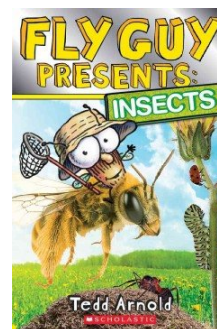

Offers an in-depth look at life in Pompeii before, during and after the eruption of Vesuvius. Includes a CD-ROM of 3D model animations that put viewers right in the heart of the action.

Extraordinary people : a semi-comprehensive guide to some of the world's most fascinating individuals

by Michael Hearst

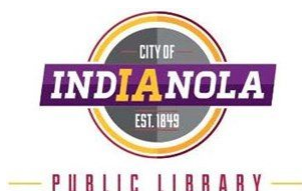

Complemented by graphic novel-style illustrations, an introduction to the lives and achievements of 50 history-making notables includes entries for such figures as Evel Knievel, the Iceman and Helen Thayer.

Fly guy presents : insects

by Tedd Arnold

During a nature walk, Fly Guy and Buzz learn all about the different types of insects, their life cycles, what they eat, and which ones are dangerous to humans
